and full-automatic pocket tissue paper packing machine.

Description:

CIL-MFT-21C Mini pocket tissue machine adopts vacuum adsorb and high-speed to fold the paper. Adopting step-less adjusting speed, and it is running smoothly. It is special equipment for 4 folding facial tissue machine. This machine composed of raw paper stand, embossing unit, lengthways folding unit , cutting and transversal folding unit, It runs a whole set of rolling to fix difference tension of raw paper, embossed, lengthways folding, pushing the paper, cutting the paper, transversal folding paper and finished products transfer.

Features:

- 1.. Embossing design on raw paper with clear embossing shape.
2. Controlled with rolling tension to fit production with different tension of raw paper.
3. Mill edge infolding, the appearance of product is elegant.
4. Adopting screw turning knife to cut for easy adjustment
5. Adopting vacuum folding format.
6. Equipped with single color or double color printing according to customers' requirement.

Technical Parameter for automatic pocket tissue paper folding machine:

- 1、 Designed speed: 800-1200 pcs/min
- 2、 Stable production: 800-1000 pcs/min.
- 3、 Power of main machine :5.5KW
- 4、 Power of blower:5.5kw
- 5、 Air pressure:≥0.6mpa

6、Final product specification (LxW mm)

Mini size:75x52 (opening 210x210)

Standard size:105x52 (opening 210x210)

7、Weight: about 1.3T

Technical Parameter for full-automatic pocket tissue paper packing machine

1、Packing size: Standard type : 106mm×53mm×26mm 10 sheets
Mini type 72 mm×53mm×26mm 10 sheets

2、Dimension of packing film: Standard type 150mm
Mini type 116mm

3、Speed (bags/min): 50~80

4、Overall size: 2840 mm×2650 mm×1720 mm

5、Power of motor: Main motor:1.1 kw

Power of motor for output side sealing: 0.18kw

Heating power: 3.4kw

6、Power supply: 4.5KW 380V 50HZ

7、Air pressure: 0.3~0.4mpa

8、Weight of machine: about 1500KG.

Technical Parameter for:

Full-automatic Pocket Tissue Paper Medium Bag Packing Machine

Model & Main technical parameters:

Model	CIL-AS -330 -A	CIL-AS -330 -B
Speed(bags/min)	22-42	22-42
Max Film Width(mm)	≤330	≤460
Packing size(mm)	(50-300)X(40-180)X(10-90)	(50-420)X(40-280)X(16-130)
Packing Arrangement Form	2X3~2X5	2X3~2X8
	3X3~3X5	3X3~3X8
	2X3X2~2X5X2	2X3X2~2X8X2
	3X3X2~3X5X2	3X3X2~3X8X2
Outline Dimension(mm)	2350X900X1650	2350X1100X1650
Machine's Weight(KG)	750	750

QUOTATION

Model 型号	CIL-AS-699
Quotation:报价	45000 USD FOB Xiamen port
Video Link:视频连接	https://youtu.be/XHnsH-1L1Kc

Term and condition:条款

FOB : Xiamen port

Delivery time: 70-80 days after receive you down payment

Payment:30% T/T as down payment ,70% T/T before shipment

Checking: customer can come to factory to check machine with material and film before delivery time.

Packing:

Spray antirust oil on machine surface and cover PE film, then pack by seaworthy wooden packing

After service:

1. The guarantee is one year. After the machine arrive the buyer's factory, if the buyer requests, the seller has to send the engineer to the buy's factory to install and test the machine, and offer training for the buyer's engineer about 5-10days. The buyer should pay the round trip ticket, hotel, food, local traffic and salary USD150 per day for each seller's engineer.

2. The electrical components, the loss by nature and artificial damage created by unprofessional technician, not in maintenance scope.
